

Hands-on Research Internship in Protein Synthesis, Purification & Characterization (f/m/d)

ABOUT US

At Protevo, we develop, scale, and commercialize production processes for high-purity proteins and peptides, leveraging a groundbreaking purification technology. By combining established expression systems with an innovative downstream process, we enable the large-scale production of novel and highly effective proteins.

YOUR ROLE

We're looking for someone with a solid background in molecular biotechnology and fundamental lab processes—someone who works with precision, care, and is able to present their results with excellence. If this sounds like you, and you're eager to actively contribute and grow alongside an innovative team for 4 to 6 months, keep reading.

YOUR TASKS

- Molecular biotechnology lab work
- Sample preparation
- Expression and purification of proteins
- Depending on internship duration: independent responsibility for sub-projects

YOUR PROFILE

Hard facts:

- Enrolled student in Molecular Biotechnology, Biochemistry, Bioprocess Engineering, or a related field with solid academic performance
- Initial hands-on experience in an academic or industrial lab environment
- Strong multitasking skills and the ability to prioritize effectively to meet tight deadlines

Soft facts:

- You enjoy taking responsibility and have a hands-on mindset paired with strong personal drive
- Reliable, self-directed, and structured working style with an eye for what really matters
- Assertive, articulate, and you get to the point quickly
- Highly self-reflective—you own your mistakes and learn from them
- Solution-oriented mindset with the willingness to step outside your comfort zone

WHAT WE OFFER

- Attractive, customizable compensation package
- Flexible internship duration and working hours based on your academic and personal situation
- Plenty of space to contribute your own ideas and approaches
- Regular on-site team events with motivated and welcoming colleagues

Even if some of the above doesn't fully apply to you—don't miss the chance to reach out. Just send us an email at career@protevo.bio.

We, the Protevo team, are excited to meet you!
